## Program

**ALL GRADE 3-12 TEACHERS ARE ENCOURAGED TO ATTEND**

This one day interactive workshop is a unique opportunity for primary and secondary school teachers across all subject disciplines to build a critical understanding of global citizenship. Weaving together theoretical reflections on global citizenship, stories from classrooms, and practical strategies and resources for teachers and school leaders, workshop participants will develop an informed and active role as global citizenship educators whose work will benefit both their students and our society.

Participants will

- Acquire knowledge, skills and dispositions associated with the competency 'Cultural and Global Citizenship'
- Discuss the threads that connect this competency to the others identified by Alberta Education, as well as the integration of global citizenship cross subject areas.
- Collaborate with colleagues through sharing examples and practical strategies from classrooms
- Explore various resources, tools, and programs offered by Alberta community-based organizations which help students build a deeper understanding of issues and take meaningful action.

This opportunity is presented in partnership with the Alberta Council for Global Cooperation (ACGC). For information and teacher resources, visit [www.acgc.ca](http://www.acgc.ca)

*This learning opportunity is being offered through curriculum implementation funding from Alberta Education.*

## Presenters

### Bill Howe

Works in Research and Innovation for Student Learning for Edmonton Public Schools, has 26 years of classroom teaching experience and continues to teach in the afterschool program. In his spare time he is also pursuing his PhD at the University of Alberta in the area of ELA, ethics and compassion.

### Leah Ettarh

Is the Program Manager at the Alberta Council for Global Cooperation. She has taught in Bolivia, China, Kenya, and Canada, and now works at ACGC to increase youth and educator engagement on global issues.

---

## Registration Notes

Participants should come prepared with a project, lesson, topic/question in mind that they would like to address in their classroom or school in the upcoming school year and be ready to share this example.
