Program

TARGET AUDIENCE: GRADE 10-12 FIRST TIME DIPLOMA EXAM TEACHERS ARE ENCOURAGED TO ATTEND

Teaching a diploma examination subject for the first time can be daunting. The purpose of this session is to acquaint teachers with the design of diploma examinations. This session will also highlight the differences between classroom assessment and provincial assessment, assist teachers in developing classroom assessments that align with programs of study and assessment standards, and provide teachers with tools for the appropriate and effective preparation of their students for diploma examinations.

This learning opportunity is being offered through curriculum implementation funding from Alberta Education.
