## About the Session

**Recommended Audience:** K-12 Instructional Coaches (released to coach at least 50% of the time), School Leaders, and District Leaders

Please join Diane Sweeney, author of *Student-Centered Coaching: The Moves* (Corwin, 2016) and *Leading Student-Centered Coaching* (Corwin, 2018) to learn how to implement an evidence-based instructional coaching model that focuses on collaborating with teachers to increase student outcomes. Taking a data-driven approach increases the efficacy of teachers, coaches, and most importantly our students. To get there, we must not only create a culture for coaching, but also establish clarity around the principal and coach partnership. For this reason, we recommend for school leaders and coaches to attend as a team.

### Learning Outcomes:

- Learn the core practices for Student-Centered Coaching
- Understand how to establish a culture for coaching
- Build principal and coach partnerships that increase the impact of coaching
- Learn how to measure the impact of coaching on teaching and learning
  
- Develop systems and structures to get the most out of a coaching program
  
- Engage in team planning that is designed support participants to reflect upon, and refine, their coaching program
