Program

TARGET AUDIENCE: TEACHERS TEACHING GRADE 10-12 MATH DIPLOMA CLASSES FOR THE FIRST TIME

Teaching a diploma examination subject for the first time can be daunting. The purpose of this session is to acquaint teachers with the design of diploma examinations. This session will also highlight the differences between classroom assessment and provincial assessment, assist teachers in developing classroom assessments that align with programs of study and assessment standards, and provide teachers with tools for the appropriate and effective preparation of their students for diploma examinations.
